ADVANTIS Global named America's #1 Fastest Growing IT Services Company on Inc. 500

SAN FRANCISCO--([GlobeNewswire](#))

ADVANTIS Global, INC., a provider of Staff Augmentation, Project Consulting, & Contingent Workforce services to Fortune 500 & mid-market clients nationwide, has been named America's #1 fastest growing IT Services Company on Inc.'s annual list. ADVANTIS also ranks #14 overall among all companies.

ADVANTIS, a San Francisco based company with regional offices nationwide, has managed to maintain steady revenue growth over the last three years despite a consistent drumbeat of headline making corporate layoffs and ongoing market turmoil. Companies have long leveraged contingent workforce services to mitigate employment risk and costs associated with on-boarding and off-boarding full-time workers. More recently it has also proven a strategic benefit which allows management to react swiftly to rapidly fluctuating human resource needs in a turbulent business environment. With contingent workforce services on the rise nationally, ADVANTIS is well positioned to continue growing into 2012 and beyond.

"We're placing a higher premium on customer experience, ethics, company cohesion, and self-improvement than ever before."

Hayden Pruitt, ADVANTIS Global's Vice President of Business Development, has kept the company laser focused on the same basic formula which has driven its success to date. "Through all the market turmoil we have remained true to our fundamental values," said Pruitt. "We're placing a higher premium on customer experience, ethics, company cohesion, and self-improvement than ever before." This year's inclusion and prominent ranking on the Inc. 500 list is proof Pruitt's focus is paying off.

ADVANTIS Global, Inc., headquartered in San Francisco, CA, provides Staff Augmentation, Project Consulting, & Contingent Workforce services nationwide to a diverse base of Fortune 500, Mid-market, and high value niche companies in the Financial Services, Banking, Healthcare, Biomedical, Clinical, Technology, Energy, Entertainment, Education, and Retail industries.
